

## **NOTICE OF HUDSON RIVER CABLE INSTALLATION WORK FOR CHAMPLAIN HUDSON POWER EXPRESS**

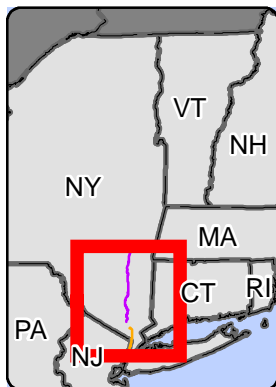

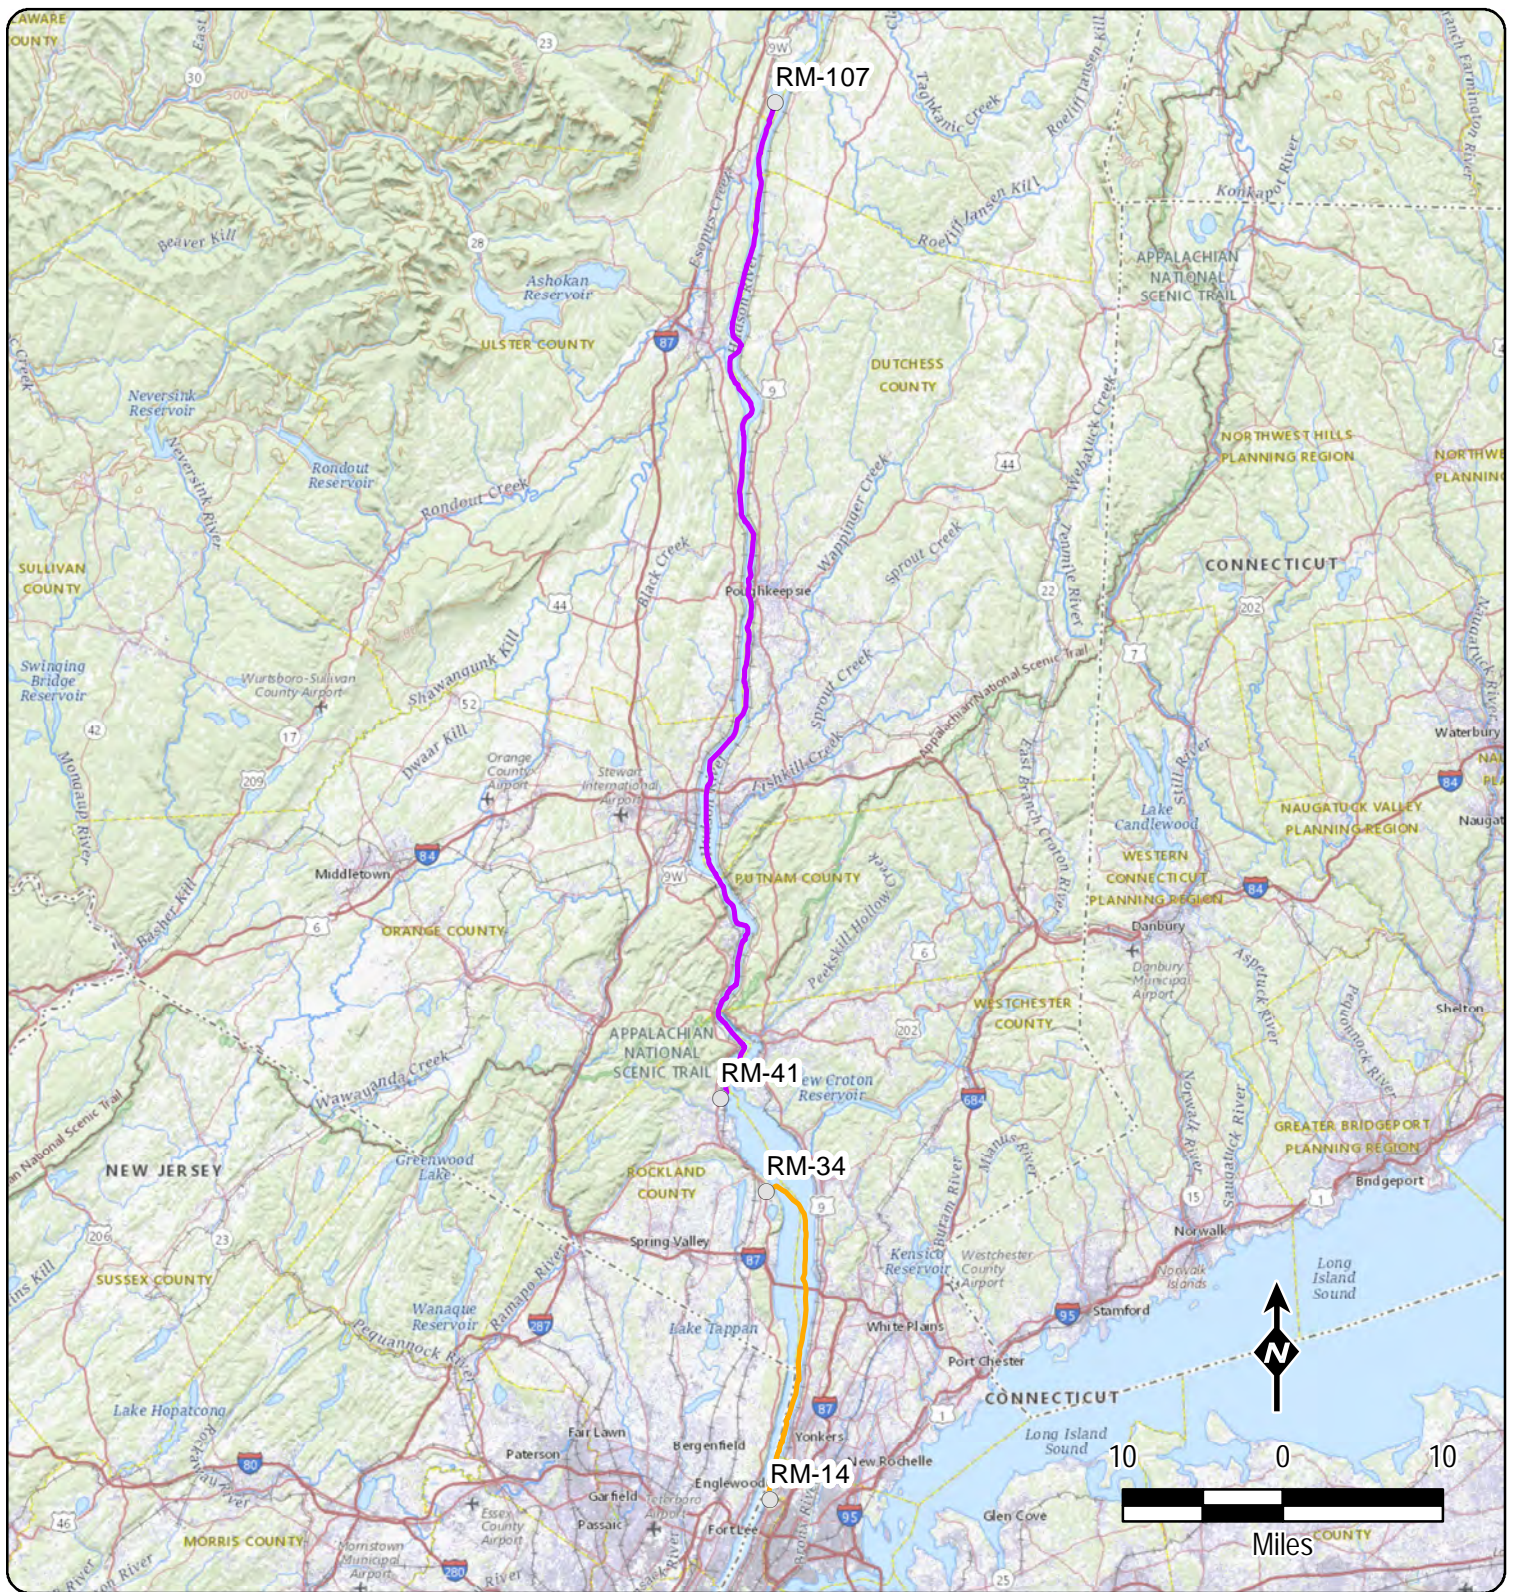

Please take notice that, on or about August 1, 2024, CHPE, LLC and CHPE Properties, Inc. (collectively referred to as “CHPE” or “Certificate Holders”) intend to commence work on Segment 19B, Hudson River Cable Installation, of the Champlain Hudson Power Express (“CHPE”) Project, pursuant to the Environmental Management & Construction Plan (“EM&CP”) approved by the New York State Public Service Commission (“Commission”) on June 20, 2024. Work in the Hudson River will be broken into two sub-segments—the Cementon-Stony Point Hudson Marine Segment (to be installed in 2024) and the Congers-Harlem Hudson Marine Segment (to be installed in 2025). Each sub-segment will be constructed in phases, starting with the pre-lay grapnel run and debris removal phase, cable installation, and post-lay mattress installation. Work is anticipated to occur August through September 2024 for the Cementon-Stony Point Segment and September through October 2025 for the Congers-Harlem Segment.

An overview map of the approved route showing planned work locations is attached to this notice. Further information is also available on the Project website at: <https://chpexpress.com/overview-of-public-documents/environmental-management-construction-plan/>. Installation work will occur on a 24-hour, 7-day-per-week basis to facilitate timely and efficient installation of the CHPE Project. Steps will be taken to minimize construction impacts during work conducted at night, through the use of noise and lighting mitigation measures, to minimize the temporary construction impacts on nearby sensitive receptors to the maximum extent practicable given other seasonal time restrictions applicable to work in the Hudson River.

The Commission issued CHPE a Certificate of Environmental Compatibility and Public Need (“Certificate”) pursuant to Article VII of the Public Service Law on April 18, 2013 authorizing CHPE to construct and operate the CHPE Project. The Certificate requires that, prior to construction of any portion of the Project, CHPE disseminate construction notices to the public and obtain a Notice to Proceed with Construction from the New York State Department of Public Service staff.

The full Commission docket for the Project can be accessed via the Commission’s website at: <http://documents.dps.ny.gov/public/MatterManagement/CaseMaster.aspx?MatterCaseNo=10-T-0139> and electronic copies of EM&CP documents are available on the Project website at <https://chpexpress.com/overview-of-public-documents/environmental-management-construction-plan/>. The EM&CP provides detailed information regarding how this Segment of the Project will be constructed, the specific locations of the proposed route, as well as descriptions of work to be performed, plan and profile drawings depicting the Project, plans and protocols to be used during construction to protect the community and the environment, and to comply with the CHPE Certificate. Paper copies of the Segment EM&CP submissions were made available for viewing at the following local document repositories: Kingston Library, 61 Crown Street, Kingston, NY 12401; Adriance Memorial Library 93 Market Street, Poughkeepsie, NY 12601; Cornwall Public Library 395 Hudson Street, Cornwall, NY 12518; and Greenburgh Public Library, 300 Tarrytown Road, Elmsford, NY 10523.

CHPE has established a toll-free number for questions regarding the Project: 1-800-991-CHPE (2473). Questions or requests for further information can be directed to: [publicoutreach@chpexpress.com](mailto:publicoutreach@chpexpress.com) or by mail to Molly Hollister, WSP USA, One Pennsylvania Plaza, New York, New York 10119.
