Re: Case 10-T-0139: Application of Champlain Hudson Power Express

Dear Secretary Phillips:

Enclosed please find the Environmental Management and Construction Plan (EM&CP) for Segment 20A, Harlem River Bulkhead Penetration, of the electric transmission project known as Champlain Hudson Power Express ("CHPE" or the "Project"). This EM&CP is submitted by CHPE LLC and CHPE Properties, Inc. (together the "Certificate Holders") in accordance with the requirements of CHPE's April 18, 2013 Certificate of Environmental Compatibility and Public Need ("Certificate"), issued pursuant to Article VII of the Public Service Law ("PSL") by the New York State Public Service Commission (the "Commission").

The Project is a buried, High Voltage, Direct Current ("HVDC") transmission line extending approximately 339 miles from the New York/Quebec border to a converter station in Astoria, Queens. The Harlem River Bulkhead Penetration Segment EM&CP includes a transition submarine-to-land installation of the CHPE Project coming ashore from the Harlem River onto an industrial parcel in the Port Morris neighborhood of the Bronx, owned by the New York State Department of Transportation and leased to private entities, which work is anticipated to occur from August 2024 through the end of the year.

The EM&CP provides detailed information regarding how this Segment of the Project will be constructed, the specific locations of the proposed route, as well as descriptions of work to be performed, plan and profile drawings depicting the Project, plans and protocols to be used during construction to protect the community and the environment, and to comply with the CHPE Certificate. The EM&CP must be reviewed and approved by the PSC before construction on the Segment can begin.

The Certificate Holders have circulated notices related to this filing and will serve this filing in accordance with the Certificate. Notices will be published in the largest daily newspapers of general circulation within the region in which the proposed Segment is located. Notices will also be mailed to landowners near the proposed Segment, if any; posted to the project website; and circulated to Parties to this proceeding via upload to DMM. Proofs of service for notices and for dissemination

of the EM&CP documents, including affidavits of publication in local newspapers, will be submitted under separate cover as soon as they are available.

Please feel free to reach out to my office with any questions regarding this filing.

Sincerely,

/s/ **Laura Bomyea Darling**
